

SCIENCEMUSICVIDEOS

Music and Interaction for Learning Science

Try sciencemusicvideos.com:

**An interactive online AP/Honors/Freshman Biology curriculum,
designed to promote student success**

Features Designed for Powerful Learning and Teaching

- Dozens of highly-engaging, self-contained tutorials covering 24 biology topics.
- Instant feedback for students through multiple choice and fill-in-the-blank questions, online flashcards, and interactive diagrams.
- User-friendly tools help instructors to easily set up classes, sequence curriculum, and monitor student progress.
- Free, downloadable, hard-copy handouts for each lesson.
- Available on any device with a web browser.

Benefits for Students

- **FEEDBACK:** Incorrect answers generate helpful hints; questions repeat until answered correctly.
- **MOTIVATION:** Positive reinforcement, student-friendly language, and integration with Mr. W's science music videos motivate learning.
- **REINFORCEMENT:** Written responses on handouts reinforce key ideas and deepen learning.
- **SUPPORT:** Robust feedback and ongoing practice promote achievement in struggling students and English-language learners.

Great for Teachers

- **ACCOUNTABILITY:** Easy administrative tools let instructors manage and track their students' learning.
- **ADAPTABILITY:** Perfect for use in the classroom or for independent work.
- **FLEXIBILITY:** Students can work individually or in pairs.

How do I start?

COLLEGE LEVEL INSTRUCTORS: Go to sciencemusicvideos.com. Set up an administrative account with a class code. Send your students the code. They register, pay, and complete whatever modules you assign.

HIGH SCHOOL TEACHERS: contact Mr. W (Glenn Wolkenfeld) at sciencemusicvideos@gmail.com to set up a license for all of your students. School-site and District licenses are also available. The prices are incredibly low.

COMING SOON: An AP Bio Test Preparation phone app. Interested? Email Mr. W.
